

Mother is With Me - April Fallis - OSEU 4

I feel like she's with me, you know, every time I do something or I try to help my family or my own kids, you know, I try to help them and I try to teach them what my mother always taught us, you know, being respectful and don't hurt, don't hurt those around you, you know, you be nice to them. And I value that very much and I instill that with my grandchildren now when they're there to visit me and I'm just so thankful they say, your parents are your best teacher.

My dad, he was doing his own thing, you know, but he was still there helping too, but him it was always, Mom, you take care of the boys and I'll take, Mom, you take care of the girls and I'll take care of the boys because I only have one sister and then there was, I had four brothers, two are gone now, my oldest, my youngest left us, so there's me and my sister and two other brothers.
